INDUSTRIAL DRIVE & TRISTA TERRACE - DESTIN, FL

PROJECT DESCRIPTION

Two roadways in Destin, Florida - Industrial Drive and Trista Terrace Court - suffered from severe alligator cracking. The City's Stormwater Specialist and Floodplain Manager noted that Industrial Drive is the heaviest trafficked and poorest quality road in Destin. **The city's road specialists chose to incorporate FORTA-FI[®] in the two 1-1/2" overlays to prevent future reflective cracking.**

UPDATE

One year later, Industrial Drive and Trista Terrace Court are not cracking or rutting despite the heavy traffic.

KEY POINTS

- Extended Pavement Life
- Reduced Rutting
- Reduced Reflective Cracking
- Cost Effective

DETAILS

Date: 2017

Location: Destin, FL

Tonnage: 2,000

Fiber: FORTA-FI[®]
